

GLASS DOOR - RIGHE 8MM

Glass door package

A beautiful way to create a stunning en-suite, bathroom open up any space you wish - glass sliding pocket doors are the ultimate way to create more SPACE and LIGHT

These systems use the tried and tested Em-B Eclipse quality sliding pocket door system combined with 8mm thick frameless glass doors which are fully tempered to the latest European norms. The glass has a satin opaque finish which makes it easy to clean with a damp cloth.

Ideal for use in homes, hotels and apartments - in general anywhere you can benefit from more space and light. Quick and easy to install by any competent builder or joiner - no special skills / tools required.

PACKAGE INCLUDES :

- 8mm Tempered Glass Door - Righe Design
- Jamb Kit
- Satin glass handle which is 11cm long x 1cm in depth - UV welded to either side of the glass
- Door Guide - A specially designed door guide is positioned just inside the pocket at floor level so you door does not flap about. There is no track at all, no threshold needed. You can continue the surface right through the doorway.
